

Griffin Pithie

AI Project Manager | NLP, ML, Agile Delivery
+1 781-974-9917 | griffinpithie42@gmail.com | Boston, MA | [LinkedIn](#) | [Portfolio](#) |

SUMMARY

AI Project Manager with 2+ years delivering NLP and ML-powered products from prototype to production in capital markets and insurance. I help cross-functional teams navigate complex AI implementations, driving stakeholder alignment and product delivery across engineering, product, and executive levels.

EXPERIENCE

AI Project Manager for Capital Markets | Jan 2026 - Present | Finsight

- Lead AI product development for PRISM, an NLP-powered natural language query system (NLQS) built on a 2.3M+ Data Point Capital Markets Database, delivering self-service bond and structured products analytics to institutional clients.
- Architected database storage infrastructure and validated query logic with analyst teams, implementing milestone tracking to ensure data integrity and scalability across large-scale fixed income datasets.
- Drive cross-functional delivery across engineering, product, and executive stakeholders; conduct client-facing demos with syndicate desks, buy-side analysts, and credit teams at top-tier financial institutions.

Intern For AI Development | Oct 2025 - Jan 2026 | Finsight

- Owned end-to-end AI solution deployment for corporate bond deal automation from initial concept through client presentation, developing prototype logic, creating requirements documentation, and aligning analysts, COO, and engineering on delivery milestones.
- Proposed automated workflow for parsing unstructured deal emails and large XLS/CSV files, including regex-based field extraction, multi-currency normalization, and AI-assisted classification to reduce manual analyst work.
- Designed and implemented a prototype interface using Node.js, PostgreSQL, JavaScript, and LLM API's to align with Finsight's tech stack.

Lead Artificial Intelligence Consultant | July 2025 – Nov 2025 | Globe Life

- Architected and deployed AI-driven solutions using ML, NLP, and structured data analysis to automate risk assessment and streamline underwriting processes.
- Drove cross-functional collaboration with underwriting, IT, and executive leadership to deploy proprietary AI systems, improving decision accuracy and enabling revenue growth.

Licensed Insurance Supervising Agent | March 2025 – Oct 2025 | Globe Life

- Licensed life and health agent serving clients nationwide; promoted to Supervising Agent within 3 months for consistently exceeding performance and client satisfaction benchmarks.
- Delivered needs-based assessments, personalized policy recommendations, and virtual consultations.

Owner and Project Manager | March 2020 - October 2024 | Pithie Scapes

- Grew gross revenue 20% YoY while managing up to 4 concurrent projects, leveraging data-driven insights to optimize operations and deliver tailored client solutions.
- Lead team of rotating employees to manage new projects, maintain client relations, and pitch upgrades to previous customers.

CERTIFICATIONS

- AI Fluency: Framework & Foundations from Anthropic | May 2026 |
- Artificial Intelligence in Project Management from Alison | Jan 2026 |
- AI Fundamentals from DataCamp | Apr 2024 |
- Agile Project Management from Alison | Jan 2026 |
- JIRA Architecture from Alison | Jan 2026 |

EDUCATION

Master of Science in Business Management of Data Analytics and Artificial Intelligence

Steinbeis University – Berlin, Germany
Relevant Coursework: Data Strategy and Governance, Data-Driven Business Models & Products, Advanced Digital Technology, Project Management, Analytics

Bachelor of Arts in Philosophy

Rhodes College – Memphis, TN
GPA: 3.5 | *Cum Laude*

- Reintroduction of Philosophy Honors Society
- Academic Development Chair, Kappa Sigma
- Reintroduction of Philosophy Honors Society
- 2 years as a member of Rhodes Men's Lacrosse, then transitioned into the role of Strength and Conditioning Coach

SKILLS

Project Management: Agile, Jira, Milestone Tracking, Cross-functional Collaboration, PRD Authoring
AI & Machine Learning: Python, NLP, ML, Prompt Engineering, AI Solution Deployment
Data & Analytics: SQL, Data Modeling, Tableau, Spotfire, BigQuery, Excel
Collaboration Tools: Notion, Google Meet, Figma, ClickUp
Domain Expertise: Capital Markets, Insurance, AI Ethics Management, Client Engagement
